

How to get involved?

If you can't adopt, foster. If you can't foster, donate. If you can't donate, volunteer. If you can't volunteer, educate. This is our motto. There are so many ways you can help be the voice of the voiceless.

Fostering:

Our fostering program is designed to make it as easy for you as possible and will cost you nothing. If you can open your heart and home, we can cover the bills. You will be assigned a dedicated case manager who will be available to you for any questions throughout the time you are fostering, as well as screen candidates interested in adopting your foster-baby. We do a thorough interview, reference check, and home visit prior to any stay over to ensure it's a solid match.

Donating:

Love And Rescue takes in many difficult cases of injured and sick animals, which can get very costly. We appreciate any amount you can donate to help towards their care. 100% of our donations are used for our animals. We are volunteer-based and our rescues live in foster homes, so we have no overhead expenses. Also, your donations are fully tax deductible. You can donate any time via PayPal to donate@loveandrescue.com.

Volunteer:

Case Manager: We are always looking for dedicated people to join our team. Our case managers are responsible for each rescue from the day of intake until the day they get adopted. He/She is responsible for regularly staying in touch with the foster and ensures that each animal get the medical care and attention it needs. He/She is also responsible for screening all potential adopters; this includes interviews by phone, meet and greets in person, checking references, coordinating trial visits, and finally the formal adoption.

Events: We have a hand full of events throughout the year where we need volunteers to help pass out information, talk to interested parties, care for the animals at the event, help set up/take down, assist with planning, and a few other duties required to organize the event.

Adoption Days: We have adoption days on the weekend, at various partner locations, where our foster animals spend the afternoon there so that people can come meet them in person. Our adoption day volunteer is responsible for handling the animal during their designated shift. This will include walking if needed, cleaning up after the animal, answering questions for any potential adopters, and most important of all, having fun with it!
